

We would like to invite members to apply to join our Board of Directors subcommittees.

This is part of our drive to improve member engagement with Union leadership and ensure members can effectively contribute to the direction of The Union.

To make sure that the Board can provide clear guidance to core functions of The Union, several subcommittees have been established, which will operate with a mix of Board, member and staff representatives.

There are a wide range of topics to choose from, and we ask you to please review the terms of reference for each subcommittee that you may be interested in and apply for any role where you think your experience and expertise would be a good fit. Please also consider whether you have the time and availability to contribute, as some subcommittees may require more time than others.

The areas of focus are:

- Membership & Awards
- Science and Policy
- Fundraising
- Training & Education
- Journals

Please note that we also have a Conferences subcommittee, but available positions have already been filled. A new expression of interest will open after this year's World Conference on Lung Health in November. We also have committees for Audit & Risk - Finance, and Nomination, Governance & Remuneration, but these subcommittees are also not currently seeking new members. Please stay tuned.

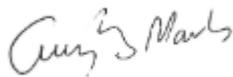

You can apply for as many subcommittees as you like. After the submission deadline, the subcommittees leadership will review applications.

[Click here to learn more about each subcommittee, the work they do, and the particular focus areas and expertise sought.](#)

**To apply for any subcommittee, please send a one-page motivation letter and short CV to [membership@theunion.org](mailto:membership@theunion.org) by 12 March 2026.**

Thank you for your continued support. Our membership forms the world's leading international network of lung health expertise. Together we can achieve our vision – a healthier world for all, free of tuberculosis and lung disease.

Best wishes

Guy Marks  
President
